

If you work in deaf education, **adept** needs you. You need **adept**.

adept aims to improve services in educational settings for deaf people of all ages, and to enable deaf learners to access quality support provision in their chosen courses and in their preferred communication mode, with appropriately qualified staff and fair assessment procedures.

adept is a new member-led voluntary organisation which was launched in June 2014 following the closure of ACSW (Association of Communication Support Workers) and the re-branding of NATED (National Association for Tertiary Education for Deaf People).

Annual membership fee only £25
